

## PARKER MAKES FINE PRESENTS

Some men wait until they are dead before distributing their wealth among their relatives and friends. Sam Parker doesn't believe that is the way to do it, and yesterday he exemplified his belief in a munificent way. He transferred 57,400 shares of the capital stock of the recently formed Parker Consolidated Irrigation company to his three sons, his two daughters and his sister. Helen U. Wideman and Eva K. Woods, Mr. Parker's daughters, are given 15,000 shares each; Samuel K. Parker, Ernest N. Parker and James K. Parker, the three sons, get 8,000 shares apiece, and Mrs. Mary K. Stillman, Mr. Parker's sister, 3400 shares.

The deed was filed at the office of the Registrar of Conveyances yesterday, and sets forth that the remuneration for the transfer is \$1 from each of the assignees, together with love and affection. The shares are transferred subject to the terms and provisions of the agreement entered into on June 22 between Samuel Parker and John T. McCrosson. It is expressly provided that none of the assignees shall hypothecate, sell, mortgage, pledge or create any lien upon any of the shares of stock for 20 years after the death of either Mr. Parker or Mr. McCrosson.

The distribution of the aggregate of 57,400 shares leaves Sam Parker only 17,500 shares of the stock of the Parker Consolidated Irrigation company. The children will hold the controlling interest in the Kohala ditch, subsidiary to the consolidated company.

## COMFORTING WORDS

Hany a Honolulu Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Honolulu readers.

S. C. Fones, builder and contractor, 1720 Sargent St., Joplin, Mo., says: "Kidney and bladder complaint made its appearance in my case when I was young and I steadily grew worse until it was feared I would die. I consulted a specialist in Chicago, but he did not help me and the plasters and electric belts I wore, were useless. I suffered from severe pains through my kidneys and various other symptoms of kidney disease and I knew that if I did not soon get something that would cure me, there would be little chance of my recovering. After an unusually severe attack which laid me up for two weeks, Doan's Backache Kidney Pills were highly recommended to me and I made up my mind to try them. I procured a box and soon after I began their use the symptoms of my trouble gradually disappeared. My condition improved steadily from that time on and before I realized it, I was in good health. I feel that Doan's Backache Kidney Pills saved my life." (Statement given in 1905.)

On Dec. 9, 1908, Mr. Fones said: "I still firmly believe in the merits of Doan's Backache Kidney Pills. It is a pleasure to make the fact known that my cure has been permanent."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name, Doan's, and take no substitute.

## M. H. DE YOUNG NOT LET INTO THE MUSEUM

Hon. M. H. de Young, proprietor of the San Francisco Chronicle, called at the office of the Bishop Estate Monday and asked permission to visit the Bishop Museum without waiting until the end of the week when it is open to the public. His request was refused by the clerk in charge who said, however, that he would take Mr. de Young's name and submit it to the trustees. It was possible, he added, that the museum would be opened Tuesday or Wednesday, to please tourists, and if the trustees decided to admit Mr. de Young, he would be notified. Last evening that gentleman said he had heard nothing. As he is the father of the museum in Golden Gate park he desired to make a close examination of the Bishop collections. His time being limited it is possible that he may not be able to see them at all.

## ILIMA CROWNED YOUTH LEFT WITHOUT PAYING

Auto drivers, money lenders and several tradesmen heaved a deep, collective sigh yesterday morning as the Alameda pulled away from the wharf, for upon the after deck of the Alameda a young man with several ilima leis around his hat, leaned over the rail, and waved a smiling goodbye to friends on the wharf.

To the auto man the Ilima crowned youth owed \$20 for several joy rides; to another young man he owed \$90 recently borrowed. Some clothes have bills against him, but he left without paying anybody, and the first time that any of his creditors knew he was leaving town was when they saw him on the Alameda's deck. Should he ever return to Honolulu he will receive a cordial welcome in the shape of a bill-collector, for some of the creditors will resort to harsh measures to get their money back.

## NO LICENSE FOR ROBERTS

(From Thursday's Advertiser.)

There will be no liquor sold at the establishment known as the Kentucky saloon on Alakea street. Roberts, the ex-cavalryman whose application for a license was denied by the License Commission two weeks ago, was turned down yesterday when he applied for a rehearing.

When Roberts first made his application for a license, he was represented by Attorney Douthitt. Yesterday it was E. C. Peters who appeared for him.

The board's refusal to grant Roberts a license, is not due to any objection to the applicant, but is rather the result of the unwillingness of the people in the neighborhood to have the saloon reopened. The Kentucky is on the Waikiki side of Alakea street, between Merchant and the waterfront. Some time ago it was closed and owners of land in the vicinity will not allow it to be reopened if they can help it.

George Lycurgus, proprietor of the Union Grill, applied to the board for after hour privileges. Some time ago, when the board decided to withdraw all after hour privileges, owing to the fact that some of the license holders were violating the confidence placed in them, a strong effort was made to have the grill excepted from the ruling, but this failed.

When the petition was received yesterday, the board discussed it a little and then announced that the matter would be taken under consideration and an answer returned at a later date. This answer will probably be given at the next meeting of the board, probably a week from yesterday.

Kimura, of the Japanese Chronicle, asked that the license for the Sunrise saloon on King street, near the junction of Beretania, be transferred to him. He explained that he is to retire from the management of the Chronicle in about six months. Shigematsu, the holder of the license, is going back to Japan, and he was anxious to have all matters settled before his departure.

As there seemed to be no opposition to the transfer of the license, the board ordered that the change be allowed.

## SOUND SENSE FROM THE STAR.

Under the heading "The Square Deal Policy Saved the Day", the Star says:

If every newspaper in Honolulu had reported and commented on the conspiracy trial in the same manner as did The Star's evening contemporary, with no fairness at all to the defense and almost ridiculous adulation, worship and boasting of the prosecution, there might now be legitimate grounds for setting aside the verdict of guilty and demanding another trial, with a change of venue. The verdict has its value and security solely in the fact that an independent press tried to give a square deal to both sides. Not only this, but that policy made the verdict itself possible. Local jury material is such that we are quite certain that if all the press had joined in a policy of mere abuse of the defendants and convicting them without trial, the jury would simply have gone the other way, in sheer love of fair play, and a great injustice would have resulted.

As the controversy has gone on, The Star has found both sides objecting in turn when matter it published didn't suit them. This is a common experience of newspapers which try to be fair—to be real newspapers,—during such controversies. The Star finds neither side satisfied with it,—but the public is.

## SMALL FIRMS PAY BIG ONES

(From Thursday's Advertiser.)

"The twenty-five hundred or three thousand dollars paid out every day to the strikebreakers and which they spend almost every day in the Ewa end of the business district, has helped to square up the accounts of the smaller tradesmen and business houses with the big firms," said George W. Smith of the Merchants' Association yesterday.

"Business is excellent in all branches of trade. Old debts are being wiped out; the big firms which have given credit are getting their returns now."

"I have been told by an army officer that the army after July 1 would pay out about \$50,000 to the military forces every month, and that soon this would run to \$75,000. Much of this finds its way into trade circles and helps brace up the market."

"Honolulu is certainly enjoying a prosperous business year."

## ELEVEN PLUMBERS HAVE COMPLIED WITH LAW

Yesterday morning the new plumbing ordinance went into effect, and eleven pipe fitters called on Plumbing Inspector Mielstein for the purpose of registering. So far only one plumber has submitted the \$500 bond required by the new law, but there doubtless will be other bonds for approval at the next meeting of the Board of Supervisors.

The men who yesterday called on the plumbing inspector in accordance with the provisions of the ordinance, are: F. Santos, M. Akimoto, John Matos, Won Loui, F. Matsui, E. R. Bath, James Nott, Jr., M. Tanaka, E. W. Quinn, K. Oki and S. K. Aki.

Some of the Japanese and Chinese plumbers are taking exceptions to the terms of the ordinance, and a meeting was held Tuesday night to formulate a plan of action. The men have retained counsel and it is understood that they intend to try and break the ordinance.

The building inspector has not been as busy this month as last. However, fifteen building permits have already been issued since August 1, and there are now four more under consideration.

The inspector is having some little difficulty forcing Japanese to live up to the requirements of the law concerning plumbing. The big party bathtubs which they affect have a good many square feet of area, and the men are at a loss to understand why they cannot bathe in wooden boxes if they want to.

As there are no stock tubs manufactured of a size such as agrees with the Japanese idea of comfort, wooden boxes are built and these, by the terms of the ordinance, must be lined with metal. But no haole can tell the difference between a Japanese bathtub and a grain bin, and some of the Japanese builders take advantage of the fact.

## CONGRESSMEN WILL VISIT KONA DISTRICT

It has been definitely decided by the Entertainment Committee for the Congressional Visit that the Kona trip will be taken. Arrangements have been made with the Inter-Island company which will allow of this being done, so Kona will receive a visit from the statesmen and the statesmen will be afforded an opportunity to see one of the best parts of the Territory.

## CITIZENS ASKED TO OPEN HOMES

It has been suggested by Secretary McClellan, who is conducting the Congressional party to Hawaii, that it would be an emphatic expression of welcome on the part of the people of Honolulu if a number of the Congressmen and their wives were to be invited to come as guests to some of the homes of Honolulu instead of being quartered in the various city hotels. It is Mr. McClellan's opinion that there are some in Honolulu from the various States represented by the Congressmen who would be glad to entertain their State Representatives and Senators in their homes during their stay in the city, making the visitors realize that while some thousands of miles away from home they are still in touch with their own State's folk.

This suggestion has been cordially received by the general committee here, but as yet there has been no response on the part of the citizens, a reticence that is regarded as decidedly strange in view of the reputation for hospitality and entertaining enjoyed by Honoluluans.

The Congressional party will be here on August 30, a week from Monday next. Between now and that date the committee would be glad to hear from those who may desire to throw open their homes to the Territory's guests. It is felt that if the leading citizens would consider the matter they would appreciate the pleasure that it would add to the visit of the distinguished guests to be entertained in the homes of Honolulu instead of in the hotels, desirable as these may be.

Delegate Kalaniana'ole, chairman of the general committee, or Secretary Mott-Smith would be glad to hear from the citizens in this matter.

## IMPROVEMENT BONDS APPROVED BY TAFT

Governor Frear received a cablegram yesterday morning from Frank Pierce, Assistant Secretary of the Interior at Washington, stating that the public improvements bond issue of the Territory of Hawaii had been approved by the President.

The bond issue was approved by the Legislature during the last session. It amounts to \$200,000 and is for two principal purposes. Half of it will go to the improvement of Honolulu harbor and most of the other half toward the Kula pipe line on Maui.

Dillon and Hubbard, the New York financial agents of the Territory, have the matter in hand and were cabled yesterday by Treasurer Conkling to go ahead and have the bonds issued. The United States Mortgage and Trust Company will print the bonds and send them to Honolulu for signature as soon as possible. There is no doubt about the placing of them on the market as several offers have already been made.

## INFANTILE CHOLERA.

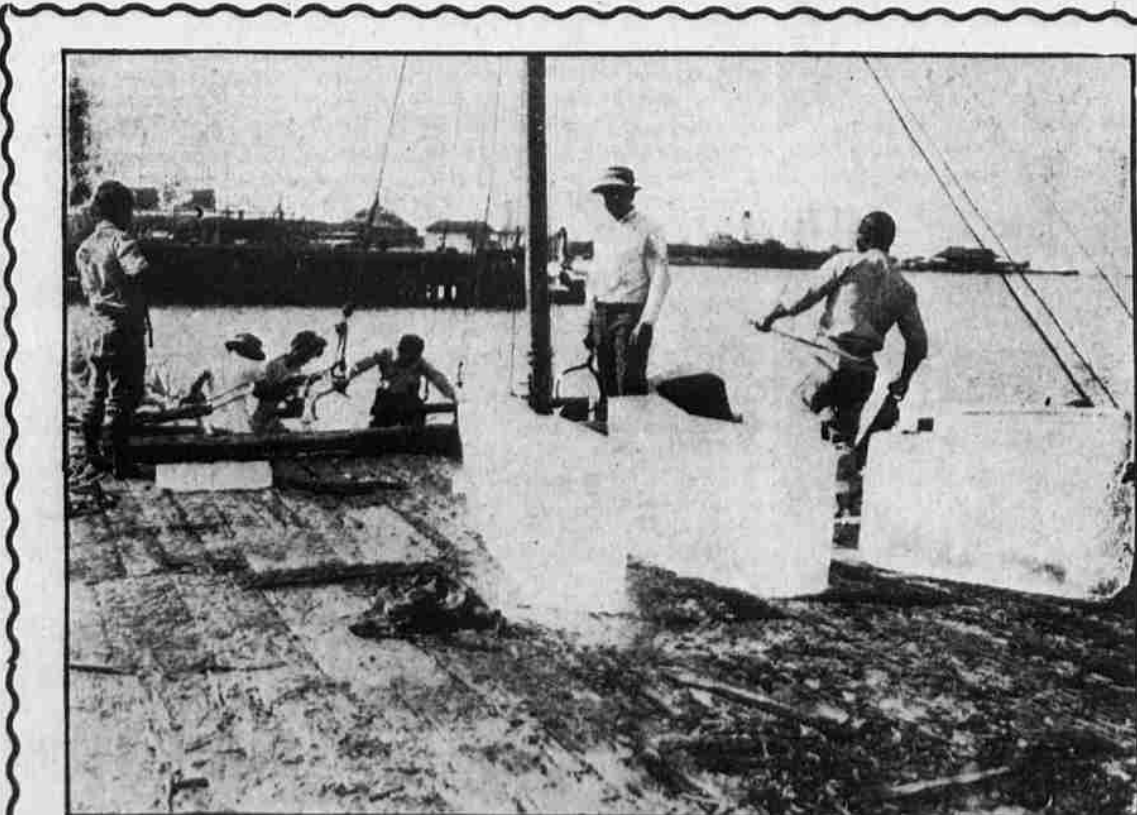

Any unusual looseness of a child's bowels during the hot weather should be a warning to mothers. Infantile cholera may develop in a few hours, and prompt action should be taken to avoid it. Chamberlain's Colic, Cholera and Diarrhoea Remedy, followed by a dose of castor oil, will check the disease in its incipency, and all danger may be avoided. For sale by all dealers, Benson, Smith & Co., Ltd., agents for Hawaii.

Editor Shoba of the Hawaii Shinto has received a letter signed by 500 Japanese workmen on Ewa plantation, thanking him for the stand which he took and the advice which he gave against the strike.

LOADING ICE INTO JAPANESE FISHING SAMPANS.

—Advertiser Photo

Japanese fishing sampans propelled by gasoline engines are ranging hundreds of miles to the westward among the shoal islets between Hawaii and Midway Island in search of the most succulent fishes for the Honolulu markets.

Since the introduction of the gasoline engine into huge Japanese sampans, the fishermen have been able to go far out to sea, their catches are larger, and fishes of more varieties are placed before the patrons of the markets. With power propulsion, the great sampans

are able to return to port much earlier than the oar-worked sampans of smaller dimensions, and for that reason they are being organized in order to put more power boats into service.

J. Mort Out, the veteran guardian of ship statistics, has disposed of all the sailing charts which include all the islands between Niihau and Midway, and the purchasers have been the masters of these fine sea-going craft. More charts are wanted, for there is considerable rivalry between these nifty fishermen who are taking their lives in their hands in going so far out to sea

in vessels propelled by engines which are as yet comparatively new to them. The fishermen are also looking to the proper preservation of their catches, for on making ready to leave port they order large quantities of ice which is placed in the holds, and down there the fish are kept in cold storage until the boats return to Honolulu.

The ice companies are receiving good patronage from the Japanese fishermen, who know that only by landing good fish from the fishing grounds located so far away from shore, will they be properly repaid.
